IF YOU CHECKED OFF ANY PROBLEMS, HOW DIFFICULT HAVE THESE MADE IT FOR YOU TO DO YOUR WORK, TAKE CARE OF THINGS AT HOME, OR GET ALONG WITH OTHER PEOPLE?

Not difficult at all

Somewhat difficult

Very difficult

SCORING

Scores of 5, 10, and 15 are taken as the cut-off points for mild, moderate and severe anxiety, respectively. When used as a screening tool, further evaluation is recommended when the score is 10 or greater.

Using the threshold score of 10, the GAD-7 has a sensitivity of 89% and a specificity of 82% for GAD. It is moderately good at screening three other common anxiety disorders - panic disorder (sensitivity 74%, specificity 81%), social anxiety disorder (sensitivity 72%, specificity 80%) and post-traumatic stress disorder (sensitivity 66%, specificity 81%).
